

FUNERAL SERVICES HELD SATURDAY FOR MRS. E. FULKERTH

Elizabeth Fulkert, wife of the late Lebbeus B. Fulkert, passed away in the Didsbury hospital on Thursday, November 13th in her 84th year. Born in Newby, Westmorland county, England, May 17, 1863, she came with her parents to Red Oak, Iowa, when she was nine years old. She was married in 1884, came to Didsbury with her husband and sons in 1907. She lived in the Rosebud district for three years, after moving to the Gore district, where she lived until her death.

She and her husband built one of the finest modern farm homes in the community. Grandmother Fulkert, as she was affectionately called by her many friends, was a good friend and neighbor to all who passed her way. Her hobby, which she enjoyed until her death, was raising flowers and house plants.

Funeral services were held Saturday afternoon, November 15th, from the Evangelical Church in Didsbury with Rev. Grams officiating, while Rev. Hallgren, a personal friend of Mrs. Fulkert, delivered the message. Her favorite song, "A City So Fair," was rendered by Miss Ethel Hunsinger and Rev. Hallgren.

Besides her many friends she is survived by her two sons, Joseph and Russell, of Didsbury. Eight grand children are present: Joseph (Det) Fulkert of Calgary and Glen, Walter and Rex of Didsbury; Raymond, Geraldine, Maxine and Bernice Fulkert of Didsbury; also nine great grandchildren. Two sisters and one brother reside in the United States.

Mr. and Mrs. Owen Coaker of Lethbridge, who worked for the Fulkerts in the early days, were present.

Interment followed in Didsbury cemetery with Didsbury Funeral Home in charge of arrangements.

STAR CLUB ORGANIZED TO AID COMMUNITY CENTRE

Didsbury now has a "Star Club" formed by some of the prominent citizens of Didsbury and District, and the membership is exclusive—but not too exclusive. You, too, can become a member, but you must conform with one main rule—you must donate at least one dollar to the Didsbury Memorial Community Centre. Your present donation, however, will be credited to you on a membership providing you bring your contribution up to the \$300 mark.

The club now has five members, as follows: with the amount contributed behind each name: Mrs. Lumber Co. Ltd. \$500; Sam Krueger \$400; Ed Klinec \$300; Crystal Dairy \$300; Wm. McFarquhar \$300.

No doubt new members will be added within the next few days and these will be added to the list published in next week's "Pioneer."

WESTERDALE NEWS

A meeting of the Westerdale ladies organization was held at the home of Mrs. J. Cowie on Wednesday, November 12th, with 12 members present. Roll call was answered with "Believe It or Not." During the business session word was pulled in readiness for carding. A baby picture contest was conducted by Mrs. J.P. Schnader, with the members entering baby pictures of themselves. Mrs. R. Jackson won the contest by a lucky draw, having tied for first place with Mrs. H. Jackson and Mrs. F. Jackson. The tea money draw was won by Mrs. F. Jackson. Election of officers will be held at the December meeting.

Mr. and Mrs. W. Herbert motored to Edmonton Tuesday last to bring home Mr. R. Jackson, following his operation. They were accompanied by Mrs. R. Jackson and daughter, Marion.

Work is progressing on the hall kitchen in spite of the cold weather.

A good program will be put on at the Westerdale hall on November 28th. The program will consist of a comedy entitled "Beauty Secrets," tap dancing, songs, monologue. The free concert will be followed by an auction sale of embroidered pillow cases, tea cloths, dresser scarves, tea towels, children's dresses, suits, aprons, toys, dolls, and two lovely wool coats. All the articles are suitable for Christmas gifts.

REV. J. W. SCHINDLER

Rev. J. W. Schindler of Fargo, N.D., will be special speaker at the evangelistic meetings to be held in the Evangelical United Brethren Church, Didsbury, from November 18 to 23, meetings starting at 8:00 p.m. Come and bring a friend.

TO SHOW PICTURES AT E.V. CHURCH NOVEMBER 23

Dr. Irwin A. Moon of Moody Bible Institute, is the producer of the sound-color film "The God of Creation" to be shown at 7:45 p.m. Sunday, November 23rd, at the M.B.C. Church, Didsbury, according to advance notice received by Rev. D.C. Eby, pastor of the church.

In the opening section of "The God of Creation" the audience takes a trip to the stars by means of solar photographs taken through the giant 100-inch telescope of Mount Wilson observatory in southern California, and views complex gyrations of our own solar system.

Lapse-time photography is utilized to demonstrate the beauties of natural sciences. The illusion of flower buds developing into full-blown blossoms in a few seconds is created through this time-compressing photo technique. The metamorphosis of a caterpillar through the various stages from worm to butterfly, and pollination of flowers are seen on the screen in full colors.

Believed to be the first of their kind are the natural color pictures of photo-synthesis, the mysterious food-manufacturing process resulting from the action of sunlight on green leaves.

Through photomicrography the audience peers into the microscopic world of a drop of water and observes the complexity of tiny organisms, enlarged more than a million times.

"The God of Creation" will be shown by the Rev. D. Fraser MacRae, Moody film representative.

NOTES FROM THE EAST

Stop! Look! Read! This is good news for all you dancers. On Friday, November 21st, the Lone Pine hall board will sponsor a dance in the hall. Hallday's orchestra will furnish the music.

The Lone Pine W.L. will hold their big fall dance on Friday, November 28th. Fox's orchestra will be in attendance. Come out and have a good time.

On Monday last Mr. O. Brown, Judah school teacher, found it necessary to close school because of an object in his eye, and had to have it removed by a doctor.

Mr. and Mrs. Phil McNeil spent Wednesday afternoon visiting with their daughter, Mrs. John Kohut.

Mr. and Mrs. Alfred Palm of Rocky Mountain House spent Wednesday night at the W. Coates home, continuing to Calgary the following day.

Mr. Clarence Dunn returned from the Red Deer hospital about ten days ago and still has his leg in a cast. Mr. Dunn suffered a shattered knee cap when a car crashed into the jeep in which he was riding near Bowden. The driver of the jeep was uninjured and little damage was done to either vehicle. We wish Rusty a speedy recovery. It gets monotonous lying confined to bed when there is plenty to do.

Mr. and Mrs. Straub and family are leaving the district and moving to the farm owned and formerly occupied by Neil Gill, east of Carstairs.

Mr. and Mrs. Chris Ehret and Elmer were Saturday supper guests with Mr. and Mrs. Frank Moon.

Mr. and Mrs. Pete Schumaker and Mrs. D.B. Wood attended the chicken supper in Didsbury on Remembrance Day evening. Reports were pleasing to the ear and pleasant to the taste.

BLOOD DONOR CLINIC EXPRESSES THANKS

The executive of the Didsbury and district branch of the Red Cross Society desires to express sincerest gratitude to all who made a donation of blood at the Clinic held recently. Also to the ladies who, in any capacity whatsoever, gave their services willingly; and to Mr. Wilmer Reist, who donated his services in the hauling of screens and water; to the board of trustees of the Evangelical Church for their courtesy in making available the basement of the church for the Clinic, and to the Editor of The Didsbury Pioneer for the generous space he gave in his paper to publicity.

167 donors were called but only 97 responded. This is not a good showing for Didsbury, especially in view of the fact that blood for the hospitals is so urgently required to assist in cures and to save the lives of our fellow men. A large number of the registered donors were unable to come to the Clinic and notified the registrar, but there were quite a number who did not extend the courtesy of notifying the registrar. This condition made it most difficult to make up the deficiency by calling other donors at the last minute. The executive of the branch hopes that at the next clinic there will be almost a 100 per cent attendance.

The Didsbury hospital has received a quota of blood for transfusion purposes and it is wonderful to know that these donors who have responded by giving their donation have made this possible.

GOLDEN WEDDING OF MR. AND MRS. CLAU REESE

The home of Mr. and Mrs. Jack Reese of Didsbury was the setting for a festive gathering on Monday, November 17 when the golden wedding anniversary of Mr. and Mrs. Claus Reese was celebrated. The celebration began shortly after noon when the honored couple were brought into the front room and seated under a gaily bedecked archway. The gathering sang a hymn of praise and Pastor E.B. Fox of Redeemer Lutheran Church gave a short service based on 1 Samuel 7: 12: "Hitherto hath the Lord helped us." This was followed by the reading of the marriage vows for the couple. After the singing another hymn of praise Pastor Fox presented the honored couple with a gold memorial wreath in honor of the occasion.

Mr. and Mrs. Claus Reese, better known to all their friends as Grandpa and Grandma Reese, entered July Wedlock on November 17, 1897 at Warren, Minnesota. Grandma Reese, prior to her marriage, was Mary Goosen. For a number of years the couple made their home in Warren, Minn. In 1918 the family moved to Canada, making their home at Lake Lenore, Saskatchewan. Two years ago, in 1945, Mr. and Mrs. Claus Reese and four of their five sons moved to the Didsbury district. They have made their home with their eldest son, Jack.

The celebrants have been blessed with eight children, three of these are deceased. Of the remaining five, all sons, four are living in the Didsbury district: Mr. and Mrs. Jack Reese, Karl Reese, Mr. and Mrs. Fred Reese and Mr. and Mrs. Ray Reese. One son and his family, Mr. and Mrs. Nelson Reese, is still farming at Lake Lenore, Sask. He and his family, however, came to Didsbury to take part in the celebrations.

The honored couple have 16 grandchildren. Mrs. Reese has one sister living in Euclid, Minn. Mrs. Reese has three brothers and one sister living in St. Vincent, Minn. Mr. and Mrs. Claus Reese are members of the Redeemer Lutheran Church of Didsbury, as also are all of their children.

The festive couple received many beautiful gifts. A walnut mantel clock was presented to them as a gift from their children. The Ladies Aid of Redeemer Lutheran Church remembered the occasion with a dozen giant carnations. Other

ED ENGBER PURCHASES "BRIGHT SPOT" COFFEE SHOP

A deal was completed last week when Mr. Ed Engber of Calgary purchased the "Bright Spot" coffee shop in Didsbury from Mr. and Mrs. Albert Schneidmiller.

Mr. Engber took over Thursday, November 13th and is now operating the coffee shop.

Mr. and Mrs. Albert Schneidmiller, who operated the Bright Spot for the last six months, are not leaving the district, but are returning to a farm west of town.

Mr. and Mrs. Engber and family expect to move to Didsbury as soon as they can secure a house in which to reside.

CHRISTMAS PIE PLANNED BY THE WESTCOTT W.I.

Thirteen members were present at the Westcott W.I. meeting, held at the home of Mrs. C. Shields on Thursday, November 13th. Roll call at the meeting took the form of a question box.

Final arrangements were completed for the social evening, to be held at Westcott on Friday evening, November 21st.

It was decided to have a Christmas Pie at the next meeting and each gift for the pie must be home made. The handicraft list for next meeting was discussed, and each member chose an article which she would like to make during the coming winter. It was voted to again send \$5 to the Vitamin Fund in Britain.

The singing of "Carry Me Back to Old Virginia," Mrs. Baustadt gave an educational talk. Her subject was "Grass," in southern France, the Sweetest Town on Earth," which specializes in the perfume industry.

The bit of fun was taken by Mrs. Gordon Ford.

Miss Anderson, district Home Economist, was unable to be present for her demonstration of stilling because of a cold. Her absence, but a visit from her is expected early in 1948. Miss Anderson was also to have been judge in the Date Leaf contest. No visitors were present to act as judges so the entries were numbered and the members voted their first and second choices after inspection. Mrs. Harry Levaagood and Mrs. Ed Klinec tied for first prize in the contest and Mrs. Alex Robertson won second.

The magazines for the Didsbury hospital were handed in and four more members volunteered to bring magazines to the next meeting.

The next meeting will be held on Thursday, December 11th at the home of Mrs. R. Benson. Ladies—Don't forget your home made gift for the Christmas Pie.

TOBOGGANING AT BUTTE PROVIDES THRILLS, SPLILLS

Owing to an exceptionally snowy evening only eight members were present at the Ladies Sports Club meeting held last Thursday night in Betty's Beauty Salon. Mrs. Carlson, however, very ably instructed in P.T. and members spent an enjoyable if somewhat strenuous evening exercising to music. Business was discussed over lunch and it was decided to buy a toboggan with the funds on hand this week.

The club met on Monday night of this week instead of Thursday and 13 members present spent an hilarious evening tobogganing on the slopes of the Butte. Members then returned to the home of Mrs. Prevost, where appetites were appeased with a very delicious lunch.

The next meeting will be held on Thursday, November 27th, in Betty's Beauty Salon and it is hoped that all members will make a special effort to attend.

Gifts included a golden colored beaver hat, a new dress, table cloths, a set of glasses, and many others. A buffet supper was served to the guests. Pastor Fox, acting as toastmaster, called upon the various guests present to say a few words. Among those present were Mr. and Mrs. Jack Reese, Mr. and Mrs. Nelson Reese of Lake Lenore, Sask., Mr. and Mrs. Fred Reese, Mr. and Mrs. Ray Reese, Mr. and Mrs. John Fulkert, Mr. and Mrs. H.W. Folkman, Mr. and Mrs. A. Esler, Rev. and Mrs. E.B. Fox, Mr. and Mrs. H. Fisher, Mr. and Mrs. C. Little of Brinkley, and Mrs. L. Klinec, and Mr. and Mrs. E. Weber.

In the evening open house was held and many other friends of the celebrants came to extend their best wishes.

Plan to Form Rural Electric Co-Op. East of Didsbury

About 80 people attended the meeting held Friday in the Mountain View hall to discuss rural electrification. Mr. Garnet Tighe was chairman and Jim Peters acted as secretary. The meeting was addressed by Mr. R.H. Gale of the Calgary Power Company and Mr. Hammett M.L.A.

Mr. Gale said the Calgary Power Company was no longer extending rural electrification under the original setup, such as the test area east and west of Olds. The reasons were increased cost of labor, materials, and interest on capital borrowed to build the lines had risen from \$600 per mile two years ago to \$780 per mile now.

The only alternative, Mr. Gale declared, was for the farmers to form rural electric co-operatives, building the lines themselves and the Calgary Power Company would supply current at cost, which was 2 cents per kilowatt hour. In this way farmers could contribute one-sixth of the cost of building the lines in labor.

There are two rural electric co-ops now operating under this scheme and five more were in the process of construction. Districts include Acme, Springbank, Gladys Ridge, and Rosedale and one in the Edmonton locality.

Mr. Gale said that the Acme district had 100 miles of line built by the farmers and it served 127 farms in that unit. The cost of the project was 12 cents per foot for the line with an additional cost of \$250 per farm to bring the current into the buildings. This cost was the same whether a man lived half a mile from the road or only a few feet off the main line. He believed lines could be built at present for \$600 per mile, plus each farmer contributing one week's labor.

He said the Calgary Power Company would undertake the survey, and after a co-op was formed, they would provide a trained man who could supervise four or five crews of farmers when constructing the line. About 16 poles per mile would be required and farmers could dig about seven holes per day. Official time sheets were kept of work done by individuals.

In reply to questions Mr. Gale declared there was no shortage of current; that they had materials on hand to go ahead with a number of

additional lines at present; that a farmer living twenty miles from the main line would receive the same power as one living adjacent to it; that breaks in the power were caused usually by lightning and boys shooting at insulators; that a house previously wired for Delco had been done properly only fuses and entrance would have to be changed.

Mr. Gale also stated that the contract would supply each farm with 3 horse power of current. While the average consumption of current per farm was now only 88 kilowatts, some farmers at Olds used up to 1000 kilowatts per month.

A resolution was passed by over two-thirds majority of those present to go ahead with the formation of a rural electrical co-operative on the basis of \$600 per mile plus a farmer contributing a set amount of labor to build lines. Mr. Garnet Tighe, Ray Wood and C.G. Neufeld were appointed a committee with power to select four others to assist them to canvass farmers within the proposed district, which is east of the highway, between the Olds project and Carstairs.

COMMUNITY CENTRE FUND GRADUALLY CREEPING UP

The Memorial Community Centre Fund took a big step nearer its \$35,000 objective last week when donations exceeded the \$2500 mark, and S.J. Gilson, chairman of the finance committee, reports that total contributions for the week were \$2,613.74.

The citizens as a whole have been supporting the Fund with generous donations, and while canvassing in the country has been slow due to road conditions, many rural residents have voluntarily made their donations to members of the finance committee.

Plans have been made to canvass everyone in Didsbury and district for donations to the Memorial Community Centre Fund, and it may take some time to get around to everyone. However, if you feel inclined to show your appreciation for services rendered by our boys and girls who died overseas so that you might live in peace and prosperity, and want to help erect a living memorial in remembrance of them, you can fill in the cheque form included in this issue, and return it to S.J. Gilson, chairman of the finance committee. He will be glad to issue an official receipt for any amount received, so that your contribution may be included in exemptions for income tax purposes.

Following is a further list of donations received in the past week:

Atlas Lumber Co. \$500; Net proceeds from Halloween—Shell-out 175.18; Armistice supper and dance \$250; John Fulkman \$60; Burns Bros. \$25; Emile Dupont \$25.

HELP THE THERMOMETER RISE

Objective	\$35,000.00
Collected To Date	\$15,593.48

Leslie Jackson returned home from the hospital Sunday, after his appendix operation. Leslie is still on crutches from the leg injury received several weeks ago. Don't forget the dance in the Melvin Hall on December 5th. Anderson's orchestra from Bowden will supply the music.

Mrs. Maude Wilkins spent a couple of days this week at her parental home.

The November Red Cross meeting was held last Thursday at the home of Mrs. R. McNaughton instead of Mrs. R. Youngs, as formerly planned. A quilt was finished and plans completed for serving lunch at the sale of E. Reist on November 19th. The December meeting will be held at the home of Mrs. E. Dupont.

DANGEROUS DRIVING

Just what constitutes dangerous driving depends mainly upon circumstances and many arrests and convictions have been obtained by our police officers on what seems technicalities to motorists, but in reality the reason may have been apparent when all phases were considered.

The above instance is more apt to be the case at this time of year when roads, highways and streets are slippery and ice coated. When highways are slippery the motorist may be driving at a moderate speed of 40 miles per hour, but a law officer may arrest or warn him to slow down. The reason—he is driving at a dangerous speed on roads too slippery for safe control of a motor vehicle.

Winter weather is here and we will probably have slippery roads on many occasions during the next five months. Motorists are urged to take every precaution to prevent an accident, whether to themselves and motor vehicle, or to some other person and his car or truck.

PROVINCIAL ELECTIONS

It appears that between now and next year at this time that six provincial elections may take place across Canada and the political pot is already starting to boil in Ottawa, though political observers do not predict a general election in Canada until the four years at least have passed since the people swept the present King government into power in 1945. Of course, it is known that these provincial contests will be watched and watched closely by the politicians in the federal field but rumors of possible calling of a sudden general election are discounted. It is understood that the leadership of the Liberal party may undergo a change in 1948 with the retirement of Premier King. Numerous reports have been heard in the past couple of weeks purporting to guess when this will occur as well as who will succeed him.

However, inquiries indicate that these are all pure guesses as far as a general election is concerned, or also who and when the leadership of the Liberal party will be decided. The latest story heard on Parliament Hill is that Premier King may retire by next August and immediately upon his return from Europe will consult with the National Liberal Federation about plans for a national convention to name his successor.

"Sounding off" is not a sign of soundness

PURITY STOVE OIL

We regret that due to heavy demand for stove oil and difficulty in securing supplies of same, it has been necessary for us to limit the hours of delivery. Stove oil will only be delivered in town and district upon 24-hour order (in other words, it will be necessary to phone your orders in 24 hours before we are able to make delivery).

Delivery in town and district will only be made between the hours of 1 and 5 o'clock daily, excluding Sundays and holidays.

CREMONA NEWS

A pretty wedding was solemnized in the United Church, Calgary, on Tuesday, November 11th, when Yvonne Watchorn, daughter of Mr. and Mrs. Frank Watchorn, became the bride of Jimmy Thompson, son of the late Mr. Thompson. Rev. H. Brown officiated at the ceremony.

The bride wore a long, white, hand embroidered dress, which had been worn by her sister at her wedding, and carried a bouquet of red roses. Eighteen guests were present at the reception. For going away the bride chose a brown suit in the new style, with puffy sleeves. The honeymoon was spent in Banff and the happy young couple are now back in Cremona. They leave Monday, November 17, for Vancouver.

The Cremona Young People's meeting was held in the United Church annex on Wednesday, November 12th, and the members were entertained with piano solos by Mrs. W. Franklin and Mr. Rowley. A balloon blowing contest with eight contestants proved very amusing and resulted in shattered balloons and nerves. Milo Burnett gave enjoyable renditions of "Freight Train Blue" and "The Preacher and the Bear," accompanied himself on the guitar. An appetizing lunch was served by Betty Johnson, Marie Simpson and Mrs. Milo Burnett.

The Merry Makers played good music to a large crowd at a successful dance held in Cremona Hall on Friday, November 14th.

C.H. Waterstreet was a Calgary business visitor last Thursday. Ross McLeod was also a Calgary visitor Thursday.

Mrs. Grace Bloxom of Flin Flon, Man., is visiting with her daughter, Mrs. Garnet Brown.

Mrs. Edna Overbe has accepted a position as housekeeper for Ken Cameron.

A chicken supper and bazaar, sponsored by the Cremona Ladies' Aid, will be held on Wednesday, November 19th. Following the supper a short educational picture will be shown by Mr. Woods of Calgary.

Stars do not twinkle. They only appear to because of atmospheric conditions.

CARD OF THANKS

We wish to thank our friends and neighbors, and those who so kindly provided their cars, for their many acts of kindness, beautiful floral tributes and expressions of sympathy during our recent sad bereavement. We especially wish to thank Mrs. Lawrence Dickau for her kindness.

Mr. and Mrs. Russell Fulkerth and family
Mr. and Mrs. Joe Fulkerth and family

NOTICE OF COMPLETION OF VOTERS' LIST

Notice is hereby given under the provisions of Section 108 of The Town and Village Act that the Voters' List of the Town of Didsbury has been prepared and that a copy of the said Voters' List is posted in the office of the secretary-treasurer.

The posted list is open to inspection during business hours.

Any qualified elector may make application for the correction of any error or omission in the said voters' list by serving notice upon the secretary-treasurer in writing on or before the first day of December.

Dated at Didsbury this 6th day of November, 1947.

F.L. EVANS,
Secretary-treasurer

**WORLD SHORTAGE
MIXED FERTILIZERS**

One of the several legacies of the war is a world shortage of fertilizer materials. A phenomenal demand for commercial fertilizers—the largest in world history—has arisen at a time when production of nitrogen, phosphate, potash and the so-called minor elements, is at a low ebb in a number of producing countries.

The reasons for the demand are many: a growing realization of the value of commercial fertilizer in many countries; the need in others to fertilize soil which deteriorated during the war; the reduction of live stock in some countries which limits the use of barnyard manure; and perhaps the most important the necessity in the least fortunate countries of improving soil fertility to increase the production of essential foodstuffs beyond a mere subsistence level.

The inadequate production has arisen from a number of causes, most of them associated with the war.

World production of phosphate and potash is still below requirements, but these chemicals are more nearly in balance with demand, or show some prospect of coming into balance. However, there is little to indicate that total world nitrogen production will rise in the immediate future, even though production in some countries may improve a little. On the other hand it appears likely that world demand for nitrogen will increase.

Nitrogen production for 1947-48 is estimated to be a little greater than pre-war, but total world requirements are likely to be 28 per cent higher than pre-war consumption. The deficit in 1947-48 is put at 992,000 tons, the equivalent of more than half a million tons of sulphate of ammonia. In pre-war years 12 countries exported nitrogen, but at present this number is reduced to five net exporters: Chile, Canada, the United Kingdom, Norway and Belgium. Although 21 countries have some natural production of nitrogen, it is these five exporting countries that have to supply the needs, or supplement the domestic production, and in addition to a threefold increase in consumption, has increased from 32,000 tons annually in the three years before the war, to 150,000 tons in 1946-47. The United States and the United Kingdom have increased production, but consumption has increased greatly in both countries, as it has in Canada.

At present the available nitrogen for fertilizers is being allocated among countries by the International Emergency Food Council and every ton now in the world pool for 1947-48 has been allocated. Naturally the allocations, because of the overall world shortage, fall short of each country's stated requirements. Distribution of fertilizers is one of the many vital problems facing the Food and Agricultural Organizations of the United Nations, for adequate world food supplies depend in large measure upon their availability in sufficient quantity.

DWARF CATTLE

A herd of five tiny cattle, which together weigh 1,015 pounds, less than the weight of an average steer, has been accumulated by Cecil Mayer, a cattleman in the United States. These cattle range from 21 inches in height to 32 inches, and 80 pounds to 290 pounds in weight. Midget births of cattle occur once in every one and a half million births.

THE SOIL NOURISHES ALL

Of all the gifts of nature none is more indispensable to man than soil. Lying over the rock core of the earth this complex mixture of animal, vegetable and mineral matter is one of the four prime requisites for life. Along with sunlight, air and water, soil nourishes all plant life and supports all animal life, including man himself. The care of the soil and the preservation of its fertility is of the greatest importance not only to farmers and the people living in the villages, towns and cities, but to untold generations yet to come.

HELL NAE BE SHARING

A clergyman and a Scotsman were watching a football game together. The Scotsman continually took nips from a bottle, and the clergyman, no longer able to restrain himself, at last cried out: "Sir, I'm 60 years old, and never in my life have I touched alcohol." "Well, dinna worry yourself see much," replied the Scotsman with a pronounced burr, "you're nae ginna start noo."

**BIRTH REGISTRATION
IS IMPORTANT**

Registration of births is of more importance today than it has ever been, according to a bulletin issued by the provincial Department of Public Health. They are now necessary, not only as proof of age in such matters as family allowances, insurance policies, and superannuation and pension schemes, but they are also required for identification purposes by Canadians seeking entrance to the United States.

With this new importance of the birth certificate has come a surge

of requests for registration from persons whose parents had neglected the formality. If indeed there was any provisions for it, at time of birth.

Unfortunately many such registrations have been falsely sought by aliens not born in Canada as well as by persons who, for some reason, wished to establish false ages. War and the formulation of plans for family allowances brought an unsatisfactory situation to a head at the 1944 Dominion-provincial conference and it was made obligatory for all persons to produce proof, for registration purposes, of the place

and date of his birth and the identity of his parents, thus bringing the practice all over Canada in line with Alberta vital statistics procedure.

ORDER REGISTERED SEED NOW

In 1947, 110,000 bushels of registered seed were purchased by Alberta farmers with a view to improving the quality of grain grown on their farms. Registered seed bears the stamp of approval of the Canadian Seed Growers Association. It is seed with a pedigree—a pedigree tracing directly to pure

seed produced by a Canadian University or Experimental station, and increased by experienced Elite growers.

In the distribution of good seed the Alberta Crop Improvement Association has rendered faithful service. This Association consists of representatives of grain elevator companies, Dominion and Provincial department of Agriculture, the University of Alberta, and the Seed Growers Organizations of the Province. Under the seed distribution plan set up by this Association, grain elevator agents are agents for and promoters of better seed. The secretary of the Alberta Crop Improvement Association, J. E.

Birdsall, advises that this year the Association is faced with a difficult situation. European and other outside markets are demanding all the registered wheat, oats and barley we can supply. Seed is being moved for export, and growers can not be expected to overlook this outlet for their crops. This means that the Association can supply seed to Alberta farmers only if they place their orders immediately.

In past years over 70% of Alberta farmers placed their orders after January 1st, but this year delay will almost certainly result in disappointment. If you want registered seed see your elevator agent now.

Address Delivered by Lt. Col. C.A. Richardson at the Butte

Following is the text of the address given by Lt. Col. C.A. Richardson, D.S.O., at the Dedication ceremony held at the Butte on Remembrance Day, Tuesday, Nov. 11.

"It is a great privilege and honor to be invited here today to unveil the Plaque dedicated to the men and women of Didsbury, who gave their lives in the second Great War."

"This Cairn was built in 1931 by the Legion, with funds raised in Didsbury and district. It is indeed a lovely Cairn and stands on this height of land overlooking the town and entire district, as well it should."

"The Plaque hereafter the deed of the first Great War was unveiled by the late Alfred Speakman, M.L.A., in August 1931, and no doubt as he stood here 16 years ago, and with many of you standing in almost the same spot as in 1931, you all heard the fervent hope expressed that the 1914-1918 war was the War to end all Wars."

"Unfortunately this has not been the case, and today we are gathered here to honor the Dead of two Wars. Let not the Memory die! Let we fellow countrymen of our Glorious Dead remember always that but for them we would not have the privilege of living in this wonderful Free Country."

"We should think next of the next-of-kin of our fallen comrades, a group who are very often forgotten. They have also made a great sacrifice for all of us and in many cases are still making sacrifices for greater than we ever dream of. There are so many times by a little thoughtfulness that we could lend a helping hand to a Mother, a wife, or a child of one of our fallen comrades, and how much it would be appreciated."

"At this time we must not forget our wounded heroes. The thousands of men who are in hospitals with twisted and broken bodies, many of whom will never again enjoy one of the greatest things on earth—good health. There are so many ways in which we can make life a bit more pleasant for these unfortunate men and as we stand here in reverence to our Dead, let us resolve, for their sakes, to do a little more for our wounded and broken men, at many times our almost forgotten heroes."

"I feel today we should also think of the poor souls who are attempting to live in the war ravaged countries of the world. The suffering and starvation is, I am sure, far beyond our imagination and surely this will help teach the entire world the tragic lesson of War."

"It is a pleasure to note today that although we are unveiling a plaque on the Cairn to the men and women who gave their lives in the second Great War there is also being constructed at this time another fine memorial to their memory. I speak of the skating rink that is being constructed by the citizens of Didsbury and district. This will no doubt be a place where young and old may partake of the finest Canadian sport, namely, Skating and Hockey. It will be a living memorial to the men and women of Didsbury and district who paid the supreme sacrifice."

"Before I unveil this beautiful Plaque Dedicated to the Men and Women of Didsbury who gave their lives in the Second Great War I would ask you all to remember what these 19 men and one woman gave that we might enjoy this country of ours. They gave their all. Let us not forget that however imperfect the postwar world is, we are still, thanks to our fallen, a Nation of Free Men, Not Slaves. 'They Threw Us The Torch.—Be Ours To Hold It High.'"

A POSER FOR BOOZERS

If you are a married man who absolutely must drink booze, start a saloon in your own home. Be the only customer and you won't have to buy a license. Give your wife two dollars to buy a gallon of whiskey. Remember there are 69 glasses in a gallon. Buy your drinks from your wife.

When the first gallon is gone your wife will have eight dollars to deposit in the bank and two dollars to start business again. If you should live ten years, continue to buy booze from her and then die with snakes in your boots, your widow will have enough money to bury you respectfully, bring up your kids, buy a house and lot, marry a decent man and forget all about you.

PURCHASE OF CANADIAN WHEAT BY U.S. HINTED

Grain growers of Canada will be interested in a recent report of New York's Wall Street Journal to the effect that United States officials are hinted to be interested in buying grain from Canada.

Ottawa officials refused to comment when asked if there was any basis for this rumor. It might be significant that while no confirmation was given, nor was there any official denial.

If Canadian grain was bought by the United States it would be a big step in the solution of the currently serious American dollar shortage in Canada. At the present time Canadian economists are in Washington trying to unravel the problems Canada is faced with in the dollar shortage. U.S. and Canadian economies are so closely related that it is almost certain that some arrangement will be made to try to equalize the adverse balance of Canada-United States trade. It has been suggested that U.S. help will be forthcoming by way of the purchase of Canadian raw materials to supplement U.S. export quotas.

Grain purchased in Canada would, in all likelihood, be paid for in line with world market prices which stand much above the current price of \$1.55 per bushel being paid by Britain and are even above the price, \$2.00 per bushel, to be paid to Britain next year.

It is estimated that the surplus of grain this year will be in the neighborhood of 50 million bushels after satisfying domestic consumption and export commitments to Britain.

There is little doubt that the Canadian farmers will be pleased to sell to a higher U.S. market. On the other hand, the U.S. farmer will naturally balk at such a plan. The answer will probably be given shortly after the opening of the next session of Parliament in December.

CUT IN CATTLE FREIGHT

To assist the movement of feeder cattle from Western Canada and also to provide an additional market for prime beef stock, the federal government has arranged for a 50 per cent refund on freight charges on all cattle shipped from Western Canada for the balance of the year.

The half rate shipments are to calves born after January 1, 1944, and heifers born after January 1, 1945. The freight refund will be payable when the purchaser is in a position to certify that the cattle have been retained in his ownership for a period of at least three months from the date of shipment.

Canada is shipping 90 million doz-
 en eggs to Britain this year. Before
 the war this country supplied only
 one million dozen eggs a year to
 that market.

"Somebody's been reading
 my mind!"

That's what may well pop into your
 head the first time you curve your hands
 around the wheel of a new Chevrolet and drive
 smoothly and smartly down the street.

For—short of mind reading on somebody's part—how else
 could a car have so many features you want? How else could
 it be so personally and particularly yours?

THE STYLIST IN YOU will spark to the lovely lines
 and colors of that exclusive-in-the-feld Body by
 Fisher. You'll appreciate and applaud the
 exquisite workmanship, the fine fabrics and
 interior fittings. Particularly for you, there are
 such special conveniences as the
 handy little cranks that control the
 No-Draft Ventilation and the push-
 buttons that lock the doors.

YOUR PRACTICAL, PENNY-WATCHING SIDE will give you
 the "go-ahead" when you discover that Chevrolet's the
 low-priced line that makes gas and oil go farthest.
 You can revel in Chevrolet's Big-Car style,
 comfort and performance with a clear
 conscience . . . for Chevrolet brings
 you BIG-CAR QUALITY AT LOW COST.

YOUR INSTINCT TO PROTECT those you love will be gratified by the
 all-steel safety and ease-of-handling of the new Chevrolet. Your
 gentler foot pressure brings swift, sure response from the brakes.
 Steering is amazingly easy and shockproof. And you don't
 even have to take a hand off the wheel to operate Chevrolet's
 exclusive vacuum-power gearshift!

Be wise! Keep your present car in good running condition by bringing it
 to us for skilled service, now and at regular intervals, until you secure
 delivery of your new Chevrolet. Come in for a complete service check-up
 today!

OIL FROM COCONUTS

Canadian housewives are well
 aware of the world-wide shortage
 of fats and edible oils. In an at-
 tempt to alleviate this shortage,
 some countries are harpooning
 whales while Britain has underway
 a huge peanut growing project in
 Kenya, which by 1951 will be pro-
 ducing enough oil to fill the United
 Kingdom's needs.

From the British West Indies
 comes news of yet another source
 of edible oil. As a result of general
 shortage, better prices, and the es-
 tablishment of local soap, oil and
 margarine factories, there has been
 a sharp revival of interest in the
 Trinidad coconut industry. Jami-
 ca's coconut production is also on
 the increase, but is still below the
 island's requirements for vegetable
 oil. In order to increase production,
 legislation is at present being con-
 sidered to require all growers with
 plantations of 200 trees or more to
 supply a higher percentage of their
 nuts to the processing factories.
 During the war, pulverized cocon-
 ut shell was used as a filter in gas
 masks. Now that oil is being ex-
 tracted on such a large scale, we
 have yet another example of the
 conversion of the sword to the
 ploughshare.

CANADA — WORLD TRADER

Canada as the world's third great-
 est trading nation, is in the fore-
 front of international commerce,
 and has become used to doing
 things in a big way. The Canadian
 International Trade Fair, to be held
 in Toronto, May 31st to June 12th,
 1948, will be both an expression of
 our position and of our determina-
 tion to maintain it.

It was originally proposed to
 house the various exhibits of the
 Fair in the Coliseum of the Cana-
 dian National Exhibition Park,
 which would have provided some
 217,000 square feet of floor space.
 So numerous are the applications,
 however, that it was necessary to
 lease the automobile building and
 the electrical engineering building,
 which increases the floor space to
 nearly three quarters of a million
 square feet.

Canada's International Trade
 Fair, more than three times as large
 as original estimates, is the kind of
 effort that will keep us among the
 leading world trading nations.

Controlling tuberculosis is a com-
 munity problem. The public must
 take part. One easy way of taking
 part is to buy and use Christmas
 Seals.

USE CATERPILLAR SHOVEL TO RELOAD CATTLE

L.A. Bennett and his resourceful
 gang are in deadly earnest when
 they maintain that they load any-
 thing. Leading a beef beast onto a
 truck parked on the Twin Hills
 during this week's storm with the
 shovel of a caterpillar will long be

a matter to boast about for the
 firm.

Johnny Bereska was up to the
 problem. He had the beast placed in
 the shovel appliance and while two
 men held the roped critter, Johnny
 maneuvered the cat over the truck
 and set the animal safely and
 gently into the truck—The Drum-
 heller Mail.

EXPERTS FORECAST FALL IN CATTLE PRODUCTION

Livestock production will fall off badly next year with a resultant increase in meat prices according to Dominion government agricultural experts.

This dismal forecast is based on the shortage and high prices of feed grains. Feed grain prices for day are from 80 to 100 per cent higher than one month ago when ceiling prices and subsidies were in effect. There is but infinitesimal hope that subsidies or ceilings will be returned.

The unavailability of coarse feed grains is causing as much difficulty to livestock producers as is the increased cost. While some grain has been shipped to eastern Canada not all of it is being placed on the market. Charges and counter-charges are being tossed about. Producers claim that the farmers are holding the grain for higher prices. Farmers, who were bitterly opposed to the removal of subsidies, claim that the price offered for grain is too low.

H.H. Hannam, president of the Canadian Federation of Agriculture, has stated that in the removal of subsidies the Finance Minister and the government "either wanted higher prices to the consumer or

they wanted to soak the farmer." There are bound to be repercussions when parliament meets in the Green Chamber. The government will be attacked on both flanks, the farmer bearing the cudgels for the return of the subsidies; the livestock producer decrying removal of price ceilings on grains as well as the removal of subsidies.

What will be gained remains to be seen but, as previously stated, there is little chance that the government will backwater. In the long run one thing is certain, the consumer will soon be paying a higher price for meat and the cost of living will continue its upward spiral.

ALMOST ONE COW PER PERSON

People who imagine that the cow is indigenous to Canada are in error. When Jacques Cartier sailed up the St. Lawrence to the best of anybody's knowledge there wasn't a cow anywhere on the continent. On his third voyage Cartier brought a few cows with him. Champlain brought milk cows from France in 1610 and the first dairy farm started a little outside of Quebec city. But immigration, both human and cattle, was slow in those early days. It was the U.E.

Loyalists who gave the first real boost to dairy and livestock farming. When they came to Canada they brought their herds with them. From that date the cattle population has pretty well kept pace with the human population. In 1944, according to the Dominion Bureau of Statistics, there was almost one cow per person or a total of 10,346,000 cattle.

CANADA EXPORTS SEED POTATOES TO SOUTH AMERICA

Over a recent four-week period, more than 485,159 crates of Canadian seed potatoes were shipped to Argentina and Uruguay. These shipments indicate the importance of seed potatoes in Canada's export trade, a position achieved through scientific agricultural research and vigilant government inspection services.

Of this total, Uruguay purchased about 120,000 crates, specifying the Katahdin variety, with not less than 20 per cent in the small size grade. The soil of Uruguay is hot and dry, and growers demand the small-size tubers for planting. The Katahdin variety has given excellent results in that country and continues to be in great demand. If, however, the Katahdin or another suitable variety should become available from some other source in the small-size grade, the Canadian market in Uruguay would be determined by the quantity of the small-size grade which Canada could provide. It is therefore important that growers and exporters make a determined effort to supply this type if Canada is to maintain its present dominant position in this market.

Dieppe, France, is an ancient city, dating back to the Gallo-Roman era.

WHO AM I

I am the foundation of all prosperity. Everything that is of value in this world springs up from me. I am the salt that gives life its savor. I am the sole support of the poor. The rich who think they can live without me, live futile lives. I have made America. I have built her incomparable railroads, created her cities, and reared her skyscrapers. I am the friend of every worthy youth. If he makes my acquaintance when he is young and keeps me by his side all his life I can do more for him than the richest parent.

I can keep bodies lean and lithe, minds keen and alert. I am even the parent of genius itself. I am represented in every paper that flies from the press, in every loaf of bread that springs from the oven. Fools hate me; wise men love me. The man who shirks me and scorns my aid never really lives, even though he may continue to breathe. Who am I? My name is work.

There are about 2,800 languages in the world.

A
STATEMENT OF POLICY
by the
GENERAL MOTORS DEALER
handling

CHEVROLET • OLDSMOBILE
CHEVROLET TRUCKS

Shortly after the war concluded, and because it was of timely importance, we—your General Motors dealer—issued a statement outlining our business policy.

In the interests of our customers and the community as a whole, we have decided that this policy should now be reaffirmed.

It will be our continuing purpose, therefore, in all our dealings with you to adhere to the following principles:

- ★ We will abide firmly by delivered prices on all New Cars and Trucks, as recommended by the manufacturer.
- ★ We will do our best, having the responsibility of being the sole distributor in this area of new General Motors Passenger Cars and Trucks, to allocate them as fairly as possible with proper regard for orders placed with us and dependent upon the availability of models.
- ★ We will ask only reasonable prices for all Used Cars and Trucks—based on an equitable resale valuation.
- ★ We will make allowances based on proper appraisal

and a fair valuation to purchasers who have cars or trucks to trade.

- ★ We will give purchasers the benefit of those accessories which are available, but delivery of a new car or truck will not be conditional upon the acceptance of accessories other than those desired.
- ★ We will charge only the established prices for parts and accessories, and not more than equitable prices for all types of services. When requested we will gladly provide the customer with advance estimates.
- ★ We will, at all times, strive to be considerate of our customers' needs—and to serve with efficiency, satisfaction and courtesy.

—: DISTRICT NEWS:—

FALLEN TIMBER NOTES

Mr. John Cooper was seriously injured in an automobile accident November 8th, when his car failed to make the grade on the west side of the Rugby hill. His car lost traction as it neared the top, slid backward off the road and overturned. Mr. Cooper was thrown from the car and it passed over him, causing severe head injuries, severed arteries in his right arm and fractured several ribs. He was rushed to the Didsbury hospital by Mr. Hogg. Mrs. Cooper and Keith were also in the car when it overturned. Keith received a severe cut on his leg but Mrs. Cooper escaped injury.

Eleven members were present at the meeting of the Busy Bees held at the home of Mrs. Johnson on Wednesday, November 5th. Roll call was answered by telling of "My Favorite Sport." During the business session plans were completed for the pot luck supper that is to be held on November 14th. After the business meeting a delicious lunch was served by Mrs. Money and Mrs. Teynor. Mr. Johnson won the ten cent draw. The next meeting will be held at the home of Mrs. McMullen on Wednesday, December 3rd.

Mr. Alex Moore suffered serious injury to his right eye when the shotgun he was shooting backfired and a small piece of metal entered his eye. He is under the care of a Calgary physician.

A pot luck supper was held at the Fallen Timber school on Friday, November 14th. Owing to bad roads and inclement weather there was not a very big turn out, but everyone present reported a good time.

Mr. McMullen and Donald overturned their truck near Barnaby on Thursday but escaped without injury.

Mrs. Cooper did not hold school Monday, Tuesday or Wednesday because of the serious illness of Mr. Cooper.

Mr. and Mrs. George Admussen were Didsbury visitors Tuesday.

Mrs. Cecil Moore visited her daughter, Mrs. John Howton, and family, for several days this week.

Billy Dick, Wayne Roberts, John Teynor and George Teynor returned from their hunting trip with a good bag of game.

Mrs. Wilfred Blain and daughter, Sharon, are visiting Mrs. Blain's parents, Mr. and Mrs. McMullen.

NOTES FROM THE WEST

The Elkton Willing Workers met Thursday last at the home of Mrs. H. Barnard, and patches were cut for another quilt. Final arrangements were made for the social evening to be held at the school on Friday evening, November 21st. During the evening there will be a program, sale of articles and lunch will be served. It was decided to dispense with the December meeting, and the January meeting will be held at the home of Mrs. O. Gillies.

Mr. and Mrs. A.L. Hogg and Norman were supper guests with Mrs. O. Krebs Sunday evening.

Mr. and Mrs. C.S. Hogg and Mr. and Mrs. Gordon Befus visited Sunday with Mr. and Mrs. P. Luff.

Mr. and Mrs. Reist, who live on the Dippel place, held open house Monday on the occasion of their 50th wedding anniversary.

MOUNTAIN VIEW NOTES

Congratulations to Mr. and Mrs. Harold Shultz on the birth of a son on Monday.

W. Shultz and his Pennsylvania friends returned home last week from a hunting trip with a bag of two moose.

The Mountain View Women's Institute will hold a winter drive, auction sale, children's fish pond and lunch in the community hall on Friday, December 5th. 50 cent admission for adults, children free. Everybody come and have a good time with your neighbors and friends.

Mr. and Mrs. John Bruce and Virginia spent Sunday in Olds.

A wedding of interest in the community was solemnized at the New Berghal church Saturday when Edna Harder became the bride of Henry Neufeld.

Tina Weins of Calgary is visiting her sister, Mrs. J. Weibe, and also helping her parents, Mr. and Mrs. John Rempel, in getting ready to move to the coast.

WESTCOTT NEWS NOTES

We extend our best wishes for a speedy recovery to Mr. Earl Klinck, who we understand is home now after spending a few days in the hospital.

Mr. Herbert Papke spent the week end in Calgary, where he attended the Keiller-Young wedding.

Burnell Reinhardt and Douglas Schneidmiller left by car last week for Kimberley, B.C., where both boys have accepted positions for the winter.

Work on Westcott's skating rink is progressing favorably, with all hands turning out to do their bit. Last Friday evening the men of the district held an organization meeting and now have all activities in connection with the rink in order for the season.

Westcott school will be the centre of attractions for the next few Friday evenings, where exciting and interesting events will be taking place. This Friday, November 21st, the W.I. are taking over with another of their popular pie socials. On the 28th the Scouts and Cubs are having a box social and fashion show. The following Friday, December 5th, the teacher and pupils are holding a whist party, commencing at 8 p.m. Admission is 25c and lunch will be served. The proceeds for the latter event will be used to defray expenses connected with the children's Christmas treats, etc.

Among those attending school outside the district and spending the week end at their respective homes were Bob Hughes, Donald Folkman and Le Roy Benson.

ZELLA NEWS NOTES

Miss Beatrice Cowitz was guest of honor last Sunday evening when about twenty three people gathered at the Cowitz home to celebrate her sixteenth birthday.

Arthur Egans and Jimmy Temple left last Wednesday for the coast. The previous week Ken Janzen also left for the coast, accompanied by Mr. and Mrs. Norval Honey, who have been visiting at the Janzen home for the past month.

With all roads icy and treacherous it seems we are having our thrills and spills these days. The corner turning west at the Zella school is quite icy and more than one truck and car has missed the turning and plowed into the opposite bank. Fortunately so far, nobody has been hurt. A week ago Saturday while driving to Didsbury Arthur Waldroff had his car turn completely around near Dupont's. When the car finally straightened out it was headed due west, with one hind wheel in the ditch. Arthur is still wondering what kept the car from turning over.

BURNSIDE NEWS NOTES

Mrs. Dennis Jenkins has returned home after visiting in Didsbury while her mother-in-law, Mrs. Arthur Jenkins, was in Calgary for medical examination. Mrs. Jenkins Sr. has since undergone a major operation in the Holy Cross Hospital, Calgary, and is reported to be progressing favorably. While Mrs. Jenkins is in the hospital her daughter, Mrs. Tom Noble of Calgary, is staying in Didsbury with Mr. Jenkins. The many friends in the

Burnside district wish Mrs. Arthur Jenkins a speedy recovery.

A number of Sunnyslope citizens were summoned to court in Three Hills recently for not having radio licenses. Leonard Falk was among the offenders, but he says he has "called the tune and paid the piper" and his conscience is again clear.

A chivari was held last week for Mr. and Mrs. Briton Nelson of Sunnyslope and all report an enjoyable time.

Charlie Mardon is employed these days shovelling gravel at the municipal gravel pit.
